Procedure for Sharing Financial Resources between C.P.P.S. Units

This administrative procedure was discussed during the Meeting of Major Superiors held in Rome in September 2016. The purpose of the procedure is to both help meet the financial needs of some C.P.P.S. units and add clarity and transparency to the various requests for financial assistance.

A request for financial assistance made to another C.P.P.S. unit needs the approval of the requesting unit's director and needs to be forwarded to the Moderator General for his review. The Moderator General will then forward the request to the appropriate unit and request their assistance for the funding of the request. Requests from an individual C.P.P.S. member will not be considered without the endorsement of the unit's director.

This procedure does not apply to a unit's existing charity funds which have their own criteria for approval. This procedure also does not apply to the financial relationship between a province and its dependent vicariates and missions.
