Hail to the most Precious Blood of Jesus Christ

Venerable Father Angelo

I am in Pievetorina on my way to conduct only two Missions in the diocese of Norcia; I would like to have you as my companion. If you can, then tonight or, at the latest, early tomorrow morning, I shall be awaiting you; tonight would be better. Asking you to do me this favor, with esteem and respect, I remain

Hail to the most Precious Blood of Jesus Christ

Venerable Monsignor

I am writing from the diocese of Norcia, and oh how great the Missions have been! When you write, the address is: Camerino per Pievetorina.

I recommend to you the enclosed memorandum for the Holy Father. It was consigned to me in Assisi. I accepted this responsibility because I noted that the favor that is requested is of some importance, if I am not mistaken. The terms used in the memorandum could have been somewhat gentler, but the one who is writing it was overcome with sadness because of his temporal losses, and is awaiting only a judgment concerning the externals. I would like to know where I should track down the rescript that will be issued so that I can designate a person etc. I urge you to consider this matter.

Please, as a special favor, see that the letter, or packet, for Canon Betti is sent immediately.

Pray a lot for me so that I will be saved. *Hoc est enim omnis homo, absque hoc nihil est*

*omnis homo.*¹

I leave you at the foot of the Cross, where, my venerable Monsignor (letting you know that the requests for our ministry have been endless), I am and will constantly be, with esteem and respect,

A couple of lines in a hurry. I have learned that in S. Paolo in Albano, one of the chaplaincies, appointed by the Lateran Chapter, has become vacant. Try to intervene in favor of one of our men.

I ask you to refer this letter of mine to Canon Betti in Frosinone. I kiss your hands. They are ringing the bell for my sermon, so, with all my respect, I remain

Venerable Monsignor

Oh the good work being done in Norcia! I am enclosing a letter that came from Meldola which I ask you to read; on other occasions, I would declaim etc. I urge you to look at it. Also,

¹ For this is every man, without this in no way is there a man.

² This letter does not have a date, but it must belong to September of 1825. In fact, during that month and year, the death of one of the chaplains, Canon Giannini, occurred. On September 22nd, another chaplain, Canon Scalabi, came to S. Paolo in Albano to take possession of the chaplaincy, bringing about a "solemn protest" from the superior, Father Luigi Gonnelli, to the episcopal chancery. Therefore, this letter must be almost contemporary with the preceding one. Note also the reference to Betti.

read the other letter³ from Father Antonio Mosti, a priest wellknown for his holiness etc. I had to cross out a couple of lines since they dealt with spiritual matters. Read it to his Holiness for his peace of mind, since we are obliged, until even death, to defend God's cause, otherwise we will be blameworthy for the matter. We are living in a time when we need the courage of St. Charles Borromeo. Prayers, along with the most profound humility before God. He wants our Society, He will defend it.

In complete confidence, I ask you never to make plans for etc., that is, *Vescovati in partibus*.⁴ I say this only because you made a reference to it. Not in any way at all: *veritatem dico coram Deo*.⁵ I wish to do good work, but, *in abscondito*,⁶ and, in particular, to work in the formation of our excellent young men there in Giano. The Church is in great need for assistance to the clergy, etc. The Holy Father will be enlightened. Tear up our correspondence, etc.

Send your letters: Camerino per Pievetorina.

Merlini writes that brigandry has been brought to an end. So, quickly we will be going back to our convents. We have already taken residence in the one in Sermoneta. *Die ac nocte*,⁷ keep our Society in mind, for it will be the thing that will lift you to the heights of Paradise. Hail to the Blood of Jesus Christ

Venerable Monsignor

I am supplying now for something that I had forgotten. On the occasion of doing a bit of good work in S. Vitale, diocese of Assisi, as well as for the nuns in Cannara, where a Mission will be conducted within a short while, I had the opportunity of bringing tranquility to the excellent bishop of Assisi. It is not a good idea for him to renounce his work in that diocese since he is truly a holy and learned man. Because of a particular scrupulosity, he had made a request for resignation and since the present Supreme Pontiff may have shown a certain acquiescence to that resignation, things now are in a state of perplexity as to whether that is the will of God. Under the preceding pontificate, he was not able to obtain permission to resign, and it would be useful for our Holy Father to know that. Furthermore, he is still in good shape to govern the diocese very well. It would also be helpful that the Holy Father, through Monsignor Attone Benigni who has been corresponding with Monsignor Ciampe, should restore that prelate to complete quietude and tranquility. The case would be entirely different if it were a bishop who could not govern neither with brain nor brawn.

In writing to you about this, I hope to be influential in effecting a good result especially since, nowadays, we do not find in bishops the learning of a Monsignor Ciampe. You are aware of the origin of his state of perplexity concerning which I have attempted to pacify him. I am etc.

Oh how sorry I am not to be able to come to Norcia for the time that you indicated to me. God knows that I would willingly have done so, but I simply cannot. If you think it is a good idea to transfer this good work until 1826, the jubilee year *extra Urbem*,¹² then we could come to a decision. But, if God inspires you not to transfer this work to the glory of the Lord, then I could send you one of our capable men; that would have to be for the beginning of December, selecting a very good day.

On this occasion, allow me to tell you that it would be desirable to have an outside Lenten preacher in Visso for hearing confessions. The Vicar could likewise occupy him either in Cascia, or in Norcia. This is for the record. You make your decision in the Lord.

Gherardo has urged me to place him in the Mission and Retreat House in Rimini. Do not cease praying for me and for the Society which is so greatly needful in these miserable times of ours. Let us maintain our spiritual pacts by means of which we hope, one day, to be united forever in Paradise. I kiss your hands. Give my greetings to Agostino and ask him to keep me in his prayers. Fortunately your letter caught up with me in Pievetorina where occupations of the ministry have called me. I entrusted the trip to Romagna to others of our men since appointments in Umbria kept me occupied.

With pleasure did I receive your letter and, in spirit, I see it always in the Divine Heart.

In Rome, I recommended to Gentilucci the city of Fabriano, but I do not know what effect he might have on the mind of the Holy Father. At any rate, prayers. Things in this world are going badly. Let us often offer up the Divine Blood and place our trust in God.

May you always be joyful in the loveliness of God. Have a confident humility and become more acquainted with the writings of de Sales.

May Jesus be our delight and our joy; one day, he will be our reward in Paradise.

Concerned as I am about the house of study for our young men, which is growing, and wanting to be of help there for as much free time as I can possibly find, appointing others for the ministry which is relentless, I am going, within a few days, to S. Felice in Giano where I shall gladly and anxiously await your letters. I felt that I should inform you of this so that your letters would not have to have many addresses due to the frequent changes that the ministry demands. Oh how delighted I was to see your most beloved handwriting again, and even more so to learn about the status of your health which is of such great interest to me. I regret only to hear about the more or less habitual sickness of the Holy Father. I, miserable thing that I am, shall not cease to pray for him. However, everyone has to admit that the chastisements have not as yet come to an end and the Reform still does not show forth its true principles. *Orabimus igitur coram Domino a quo omne bonum.*²⁶ I cannot express to you how many beautiful ideas came to me in Giano at the time when two of my companions, during this past solemnity, conducted our usual triduum. With enthusiasm, I read again about the wonderful progress of things relative to our Institute and I came to the conclusion that God who *coepit opus, ipse perficiet consolidabitque.*²⁷ And since the Lord *miscet gaudia fletibus, fortiter et susuiter cuncta disponens,*²⁸ inexpressible is my joy in seeing here in S. Felice a community so full of young ecclesiastics who, after having completed their work in the seminaries, are now preparing themselves as the hope of the Church, and are maturing both in piety and knowledge, a work that offers the first stone, so to speak, of the Reform: *sic populus sic sacerdos.*²⁹ These are the new olive plants that surround the table, the altar; and God is glorified and blessed.

I realize that the greatest occupation that I can assume at this time, which is advancing, and in the short while that might still remain as yet for me as a pilgrim *in hac lacrymarum valle*³⁰ is the training of these young men, with the exception of one or the other Mission that I will be able to take on, but less often, now that there are in our Institute members who are *omni exceptione majores*³¹ for this line of work. In that way, too, I shall be able to write down what I have been able to learn, and, in the most intimate union with my Lord, I can prepare myself for

the eternal years. *Hoc est enim omnis homo, absque hoc nihil est omnis homo.*³²

Next year, Godwilling, another house of studies will be opened in Benevento if a locale can be finally freed for it. Furthermore, another House in Rimini, opened without the least cooperation on my part, now offers a new source of tribulation *in temporalibus*,³³ but I willingly accept that from God. It is a matter of new foundations, at a time when people, in general, show a fatal sort of indifferentism toward sacred and religious things. But, my Monsignor, what a reason you have for comfort since, without really being involved in the Mission work, you have the credit for being a father to the ministry in the ways that Providence has pointed out to you. Crosses do not frighten us. In fact, in our hearts, we love them with the assurance given in the statement: "*cum ipso sum in tribulatione eripiam eum et glorificabo eum*".³⁴

A few of the students give a modest tuition, but what can one do with that? *Ex peculiaribus circumstantiis*,³⁵ it is futile to ask or even think about asking for more. The method that was given to us by Monsignor Albertini is wonderful; and, if I were to have the means available for putting into print the aims of the Society, oh how much good would come to the Catholic world. But, with respect to God's works, it is written that *humilitate crescunt etc*³⁶.

The obligations that all of us have toward you, especially those that I have, are innumerable. *Dominus repleat cor tuum omni gaudio, et pace in Spiritu Sancto.*³⁷ I recognize that, just as you mention it to me, you too must know how to seize the moment etc. In the upcoming Retreat called for by the rule in preparation for the feast of Xavier, many prayers, indeed, will be offered before the throne of divine clemency, both for you and for this most important objective. On the Saint's day, I shall offer Mass for the Holy Father and for you. However, when you discuss zealously our situations which are, ultimately, of prime concern for the greater glory of God, I beg that you speak of the Society in general and never mention my name. Let this be *in communicatione spiritus coactus imprevisita necessitate*.³⁸ When one or the other page is read, cut out, so to speak, or industriously accommodate the meaning rather by explaining it aloud so that any acknowledgment of me will be lost, *et scit Deus quia non*

mentior.³⁹ The greatest act of charity that you can exercise now in my regard will be that of influencing my private and hidden life which I so deeply desire and ask from God *et fuisis praecibus. Satis haec sint*.⁴⁰

Matters to be taken into consideration.

1. A bit of help from the Marca for the poor House in Pievetorina.
2. Something left over in Romagna for the House in Rimini.
3. The business in Albano to be put in order, for I have to reopen Terracina, extremely needful in the highest degree. I must give back to that city what, up to now has been granted to Albano, *Agitur de Civitate ubi sunt Cineres Fundatoris Sanctissimi Praesulis*.⁴¹ There, in the Province, the very maintenance of ample convents, which are now all occupied, the sacred utensils etc. etc. etc. offer a picture that is quite broad. For any other foundation, means are being sought, and the ones that have been assigned to us are not sufficient to cover half of the needs. The piety of the faithful, nowadays and until the people are uplifted first by a conversion back to God, is not able to be estimated in the temporal line. After first speaking to God, I can communicate these things to you without losing, by the grace of God, any trust, any courage, and towards you the most extensive gratitude.

4. All of the papers that I wrote at various times, you have probably submitted to the Holy Father whom you will remind to restore the old method of granting asylum in the churches and that it should not consist merely in a verbal permission, but in a true sense of refuge etc. In the collection you make of your papers, do not fail to preserve those rescripts which so clearly manifest the attachment of the nowdeceased Pius VII toward us.

5. You must have received by now some petitions that pertain to Giano, or our Society, with reference to legacies of Masses to be confirmed etc. etc.

6. I presume that the Jesuits will cede the pension, otherwise the Holy Father should assign it, since he is fully informed of the situation. I am convinced that even with his own means he could compensate us for arrear payments. Who else can we turn to? I heard that the Jesuits have been granted exemption from debts, taken on with the Camera. But should not ours be the first? In the meantime, the Achille heirs are asking us for 400 *scudi* and many other obligations imposed by the deceased for the upkeep of that House. Even though the Society may not be able to get other favors, at least let it get what is due to it in justice. You can imagine the multiple needs that this House faces. For the love of God, try to settle this whole situation so as to bring to conclusion the burden arising from so many urgent matters. After God, we have no one else to have recourse to than you.

7. With the young men having to exercise Orders, I have on hand only one red altar hanging; I would need to have one in each of the other colors. I hope that you will also present

⁴⁰ And in prayers poured out. Enough of that.

this memorandum, adding it to all your other fine accomplishments.

Finally, I recommend myself greatly to your prayers and I state again that you have my esteem and respect. I am enclosing a memorandum from Aquila which has been sent to me and I would like you to read it. However, I note, as the bishop himself says in his letter, that November is not a favorable time. I think that in Naples and in the Kingdom, with regard to the chapels in the prisons, nothing has been done as yet. In the Province, at least that of Campagna, we note that little is known about the privileged altar. A new circular would be needed.

My dearest Giovanni Francesco *quem diligo in charitate non ficta in visceribus Jesu Christi*⁴²

I do not know who the painter was, in Rome, who depicted my Madonna. The one that added the Chalice to it is Mr. Pozzi; but the image was carried on the Missions by other Missionaries who are already deceased. So, you make an effort on your own to look into this most tender matter.

I hope that the Jubilee year in the Provinces will be a fruitful one, and let us pray wholeheartedly to God. God will present those members who will be the Gospel proclaimers. In the meantime, our Society has been receiving, up to now, not a few requests. Who can decide whether it is the will of God or not that we should be established there? Prayers.

Does the teacher not manage to stay in the house? Well! Work things out as best you can with your fatherinlaw. But, do not send your children far away from your supervision. It would be better to find a good middle way, so that, in external matters, you might keep everything under your watchful eye. I know what the practice is, but, in general, I do not know what other advice I could give you in the Lord.

Finally, do not cease praying for me and having others do so too, as I state again, dear Giovanni Francesco, that with esteem and respect, I remain

Venerable Monsignor

Being aware of the many concerns, I have written to the bishop of Aquila that if the Mission is not feasible for after Easter, he should pick a time between the month of January and February presuming that God will manifest his will in having me take care of this good work. I ask that when you speak to the Holy Father about this, speak of the Institute in general etc. which is, by divine mercy, blessed with so many capable men, and more and more, is that number increasing in a very wonderful way.

I recommend to you the petition that was submitted to you in regard to the pious legacies of S. Felice, since the rescript of the first concession has expired.

Please ask the Holy Father to confirm for the entire year of 1826 those faculties that he granted to me for this present year. It will be sufficient for you to inform me *a voce*⁴⁴ since they will be expiring before the end of 1825. Only if you think it is a good idea, ask him to grant me the faculty, during 1826, of giving the papal benediction in view of the fact that in 1826 the Jubilee year will be extended to the entire Catholic world. Likewise, for this same reason, to grant me the faculty of delegating to various companions of mine for this same year of 1826 the faculties that I enjoy, except for the papal blessing if he does not wish me to make that delegation, but pointing out to him that under the regime of the deceased Pius VII, I had always enjoyed that faculty of giving the papal blessing. I understand well that in 1825 it had to be withdrawn; but now, thanks to the Jubilee year, I feel that it would be to the greater glory of God to be able to extend it once again. I add, for the sake of clarification, that this blessing has always been given with the Crucifix, as a simple priest is permitted to give it. He simply announces that the Holy Father, wishing to share in the good work etc. etc. etc. now, through us gives you his blessing etc. etc. The requests for the ministry are indescribable etc.

Next Wednesday, the Retreat in preparation for the feast of Xavier, will begin. Besides being pleasing to God, it will be a time when I shall pray in a special way for the Holy Father and for you, to whom I owe so very, very much etc. etc. The house of studies for the priests is my delight and is progressing well. When you find it possible, do not forget to provide a bit of help

whatsoever to cover postal expenses from which the Holy Father could exempt me since my lettercorrespondence is concerned only with the work of the ministry.

Finally, on the occasion that you confer with the Holy Father, ask him, *a voce*,⁴⁵ that he grant me the faculty of offering three Masses on Christmas eve. I shall apply the first one for the Holy Father, the second one for the Institute, and the third one for you. I kiss your hands. While asking you for your prayers, I am and will constantly be

*Pacificans per Sanguinem Crucis eius sive quae in Coelis sive quae in terris sunt*⁴⁸

Venerable Monsignor

I am writing this letter, while withdrawn in Retreat, just to thank you for your very dear letter.

I have no particular worry about the Mission in Aquila, nor for any other project. All that I need is to identify the will of God, and consequently I do not overlook those means whereby I can recognize it etc. From Sinigaglia, Jesi and Ancona, requests for 1826 are already arriving. I shall continue to govern my moves as best I can, always with the desire of being of assistance and help in the best way possible to our young men here who are truly edifying.

Thank you for your solicitude, and I have no doubt at all that it is all accomplished by turning your every thought toward the welfare of our Institute. I regret not being able to be as helpful as I would like to have been in behalf of the Society, that has been so blessed etc. I pray that the Lord will give me strength of spirit and of body so that I can assist it to my very last breath. However, I am consoled by the reflection that *bonorum meorum non indiges etc.*⁴⁹

On some occasion, if possible, and may God inspire you to do so, tell the Holy Father that I judge it to be necessary that in our days it would seem to be right that a gentler discipline should be shown in the prisons towards one who is consecrated to God. A few of my companions, coming back from a Mission, witnessed in Ancona a religious dressed in his habit and surrounded by gendarmes. In Fuligno, a short while ago, a priest, carried on a cart and guarded by gendarmes, was seen passing by. I say nothing more etc. God is visiting us because of our sins. If, one day, we should come to the point of acknowledging the various bases for the Reform as well as the need for our Society, blessed will we be ... but, we note that the day set down by God has not as yet arrived. So, prayers, and humility.

I have had our place in Terracina restored, but what good will that be if Albano is not supported and the subsidy is once again passed on to Terracina?

Miserable thing that I am, I pray for the Holy Father, for the Church and for you. Do the same thing for me so that my soul will be saved. May Jesus be our delight, our joy, our

*Christus dilexit nos, et lavit nos in Sanguine Suo*⁵⁰

Venerable Monsignor

Oh how sorry I was not to be able to visit with you again in Camerino. However, I do not give up hope of getting back to that city which is so very dear to me, because of the ministry which I have exercised there as well as because it is entrusted to your pastoral care. It is to the infinite glory of the Lord, let us say, that requests for the ministry are coming in for the general Jubilee year. I am not forgetful of the discussion we had in Rome concerning your archdiocese, and, while here withdrawn for my Retreat, I thought that it would be good to send you this letter both to renew our spiritual pacts in the divine Sacred Heart as well as to agree on the finalization of your most ardent desires for the good work that you wish to see promoted under your jurisdiction.

I would like to make available, everywhere, efficacious encouragement through the apostolic ministry so as to arouse compunction and sincere conversion in the souls of the people. Furthermore, I would say that the program should be so arranged that when you come for visitation, for example, in S. Genesio, you would find the harvest mature and only the general communions would follow, after which the workers would then precede your next visitation to another place, and in that way a great work will be done to the glory of the Lord. You refine this idea and then please communicate it to me so that at an opportune time I can appoint the workers. I believe that two would be adequate, along with a Brotherin service. Furthermore, I ask that, even starting now, you make arrangements for our men in such a way that they will be able to maintain the rule covering residence, food and other things, as you already know. With regard to the monasteries, inform me as to what will be expected so that I can get in contact with them, and thus the glory of the Lord will always be promoted.

Let us come now to the matter of Pievetorina. I excused myself from a few Missions, appointing others of our men, so that I could spend a bit of time in holy occupations in behalf of

⁵⁰ Christ loved us and washed us in his own blood.

that House. I have not failed, even very recently, to say a fresh word of encouragement to the most reverend Treasurer. I have no doubt that you, too, will always have this matter in mind; in addition, we are very confident in the prayers placed before the throne of the Father of providence. Much has been adjusted this past year in the line of economy through the diminishment in the number of individuals so as to bring about a better balance. In the past, the family was just too big, exceeding respectively the economical strength available, and so success was not achieved in that pious House. Nevertheless, things were always run in keeping with an upright objective. So, God who *coepit opus, ipse perficiet consolidabitque*.⁵¹ St. Francis Xavier, who had as his companion Father Paolo from Camerino, will take care of it. Recommend me, along with all of my beloved confreres, to him. I cannot tell you how consoled I was in seeing here in S. Felice some 20 young priests who are preparing themselves for the ministries of the Church.

Recommend them to God. It was quite necessary that after completing their courses in the seminaries that there should be a means open to them whereby they would be prepared to wage war against the devil in any field whatsoever assigned to them by the most loving God. It is certain that this work will gradually be effective in removing inertia from the clergy as well as everything else that flows from that inertia. This is how the people will be edified *et vita Jesu manifestabitur in nobis*.⁵² Eventually, help will be given to the Missions of the Propaganda, and then verified will be those words: "*ite, accendite inflammate omnia*".⁵³ But let us now get back to our problems.

The pious legacy in Valsant'angelo and Pieve has been resolved and fruitfully. Antico will receive the grant of payments. We can be at ease about that.

With regard to the Morelli emphyteusis, within a few days, you will be informed in person. Concerning the moral cases, I asked Abate, in consultation with Ceccarelli who is aware of the situation, to handle the matter, always with the approval of your most reverend excellency in everything, and that a concise, clear petition be drawn up, removing all scruples concerning the past and this is to be sent to me who will look into it thereafter in Rome. For the new year, I suggested that solutions to cases in due form should be initiated and everything should proceed to the greater glory of God.

I have already written to the Province of Campagna that as soon as our Retreat, called for by the rule, is concluded, the Missionary Lenten preacher would be on his way. He is the man who last year in Pievetorina gained many blessings from God through his sermons. So, I believe that the providence of God is calling him to be the third man assigned to work in Pievetorina. From Angelici I received your best wishes and when I sent him my reply I begged him to extend

⁵¹ [He who] began the work, will complete and will confirm it.

to you my warmest and special greetings. He writes to me that he feels called to our Institute. Your most reverend excellency will know how to advise him in keeping with your pursuit of the greater divine glory... You can see the status of the people.

I kiss your hands; the Reform is calling and so I must conclude this letter. Always consider me to be, most reverend excellency, in Jesus Christ Crucified *qui suo nos redemit Sanguine*,⁵⁴ with total affection and very special esteem

I hope that you have achieved your holy desires through your Retreat; I am concluding my own this very day. I hope that you did not forget my poor soul as well as the aims of our Institute which are so very dear to God and of such urgency for these miserable times of ours. May St. Francis Xavier fill all of us with his holy spirit; this is what you should pray for on the recurrence of his solemnity. *Oremus ergo ad invicem*.⁵⁵ With regard to disturbances to our spirits, we all know very well that *fasciculus myrrhae dilectus meus*.⁵⁶ But ... *ecce in pace amaritudo mea amarissima*.⁵⁷ Winter will pass and the Lord will have us enjoy a smiling springtime. *Omnia enim fortiter et suaviter disponit*.⁵⁸

Our Institute, by divine mercy, is progressing well. There must, of course, be crosses; but the love of God sweetens everything. Requests for the ministry are not lacking and already are beginning to pile up for 1826. A poor artist came to Giano several times asking me to send you the enclosed petition. If you can, console him, at least in part, through the help of Mrs. Girolama.

I am adding also a new petition⁶⁰ with regard to the Masses in this sanctuary, presuming that you, having a copy of the proceedings, may have mislaid the other one. As a distinct favor, I ask you to look into this rescript so that its fulfillment will not be delayed. It will be sufficient to have a letter from you containing the assurance that the Holy Father confirms etc. On that occasion, you might also give him a reminder of the renewal of my faculties that are about to expire. They are needed here since penitents are arriving from distant parts etc. The good work is immense; yet, the temporal problems wear down one's humanity; but, then, God will take care of that. I heard from the tenant that has made some deliveries to the Jesuit Fathers that with regard to the funds for S. Felice in Giano, the Jesuits claim that they have no obligations either for the back payments or for the current ones. Perhaps, this man may have been mistaken. What am I to say? Prayers.

As for the Retreat House in Terracina, I now have the artisans for its restoration. We are buried in a sea of objectives. I place my trust in God and in your protection.

I wish you every blessing of God on the occasion of the upcoming solemnity. May Jesus be our delight, our peace, our all. Most reverend excellency, I am and will constantly be, with complete affection, esteem and most sincere gratitude

My dearest in the Lord

Spina's letter has taken its course. In person, Monsignor has urged me to look into the matter of the request made by the mayor and the council of that area for a Retreat, and I am proceeding to reply directly. Later, we can, eventually, come to an agreement as to the designated time.

I return my most cordial greetings to all, in particular to Mr. Sigismondo, the mayor, as well as the others that you mentioned.

I can also assure you that I never forget you in my poor prayers, and God knows how many blessings I wish for you. You do the same for me and for our Society. May Jesus be our delight, our joy in this miserable world, and, one day, be our reward in heaven.

Hail to the Blood of Jesus Christ

Most illustrious sir

Oh how obliged I am to you for so many favors! St. Francis Xavier, whom I love so very much, knows very well whether I was able or not to get free for the time that was set aside. Still, in order not to leave it untended, I had assigned one of the very best men of our Institute, and I sent a letter of mine to you, if, indeed, you did receive it. At any rate, a certain amount of good work was achieved. As soon as I am able to get to your area, I shall inform you and then we can discuss everything. Pray to God for me, for since I am dependent on directions from Rome, many times I am not free to do what I would like to do, and consequently involuntary impediments and obligations do arise.

Please excuse me for what has occurred and be certain that I share the anguish that you must have suffered. Actually, it is also quite true that at that time I was not feeling very well, but now I am much better. However, I could not have taken part in the dinner since our rules do not admit of exceptions. I would like the sick people to promote the tridua to that Holy Image. For the sake of my own devotedness, I hope to send you a little silver Heart within a short time. Pray a lot for me, and, with total affection and esteem, I remain

Venerable Monsignor, *quem diligo in charitate non ficta in visceribus Jesu Christi*⁶⁷

The heavy rains have delayed the trip of Canon Carboneri, assigned to Pievetorina. However, I am expecting his arrival from day to day. At any rate, concerned about the fulfillment of the good work to be done by the pious Mission House for the approaching holy feasts, feasts which I hope will be, for you, full of generous blessings, I am temporarily appointing there Father Giovanni Chiodi, one of our newest Missionaries. He is a priest having special ability for preaching and is already approved for the confessions of men. May he have your pastoral blessing and be granted the faculties which he will use to the greater glory of God. I personally have communicated to him all of our regulations for the ministry. He has been attached here to our House of S. Felice, which I consider *debito modo per modum unius*⁶⁸ with the one that we have in Pievetorina that is so very dear to me.

In order to make the trip speedily, during this season of the year, I have had to appoint this excellent young man, full of the spirit of God, who, in Ascoli, was under the spiritual direction of the saintly man, a member of the Filippini Institute, whose name is Father Giovannelli. While he was preaching the Lenten series last year, he was granted the faculty, by Monsignor Cappelletti, of hearing also the confessions of women. You could likewise grant him this faculty while he is there in Pievetorina, and, you can be very certain that he is endowed with the necessary maturity.

My Monsignor, I am always united with you in spirit. Pray incessantly that I may gain our beloved homeland in heaven. I do not fail to do the same for you. As for other matters, another letter. It has now become late. I kiss your hands, and, most venerable Monsignor, with total obeisance, esteem and particular affection, I remain

here in S. Felice along with the purpose of concluding the work of activating this house of studies for our young men who, in this Mission and Retreat House, are preparing themselves for the expectations of the ministry.

It is quite true that I received a letter from the Archpriest Rossi, but I was unaware that Castel di Lago belonged to that diocese. I noted that there would not be time to arrange everything etc. for the holy ministry of the Missions during the holy feasts. I am awaiting a reply from him concerning this matter. In general, I would think that it would be a good idea to first get information about the jubilee year, which is just a matter of days away, and then come to an ultimate decision. If, however, you think otherwise, all you have to do is drop me a word and we will quickly decide on a day for the entrance. Therefore, I shall be expecting a couple of lines from you and then this great work can get underway. I am of the opinion that Acquasparta should be handled first and then Castel di Lago. You can discuss this with Archpriest Rossi, or even make the decision on your own.

I return to you a thousand best wishes for the blessings of the recurring sacred mysteries. Pray and have others pray for me who, with wholehearted esteem and respect and very special affection, most venerable Prior, remains now and constantly

Hail to the most Precious Blood of Jesus Christ

Venerable Canon

In reply to your most appreciated letter, I cannot help but express to you my very deep delight in God to see that you are so enthusiastic for the devotion to the most Precious Blood. Great will be the divine blessings upon you.

As far as I know, the booklet is not different from the ones printed in Fabriano. Perhaps in the ones printed in Rome there may be a fuller listing of the indulgences.

I shall seek an opportunity for sending you copies of the printed matter which is usually given to those enrolled, at no obligation. And giving them a booklet is an equivalent. It is not necessary that I remind you only that no alms should be asked of the one enrolled; rather, a small donation might be advised for particular individuals who understand the situation well. Excuse me, I repeat, if I take the freedom to give this advice.

The printer in Rome sells the booklets, as far as I can recall, for either eight or twelve *paoli* for one hundred. In short, between eight and 12 *paoli*. I do not have an exact remembrance.

Try to see that the Chaplet is recited publicly everywhere, as is the practice of reciting the

rosary. If, later, a canonical erection is to be worked out and you need clarification, all you have to do is send me word, addressing it, for now, to Fuligno per S. Felice di Giano. Pray a lot, a lot for me.

Acquasparta

Hail to the most Precious Blood of Jesus Christ

Venerable Prior

I am sending a reply to a couple of your most appreciated letters by special delivery so that the good work of the holy Missions can be arranged there. I received one of your letters delivered by hand, and the other came with the maildelivery. The bull announcing the universal Jubilee year has not come out as of now. I do not know whether you want to wait for the promulgation of greater faculties so that the Missionaries will be able to accomplish an even more extensive good work. On this point, I submit to whatever you wish to decide. The requests coming in from every area are incalculable, but, Acquasparta is very close to my heart.

However, the unexpected opening of a Mission House in Terracina as well as the assigning of various companies of our workers for the Missions that have been requested, have not allowed me, for the time being, to be away from S. Felice. If we were able to discuss things together, you would empathize with my situation of having to direct the Institute which is spreading farther and farther to the greater divine glory, along with the fact that I find that, I can no longer prudently say I shall come in person. Rather, I must only set in general the date for a Mission and then either I am free and I can go, or the Society's work ties me down and I must send others. But, by the grace of God, we are not lacking in men who are very capable of carrying out the ministry and who can bring in a harvest that I, because of my tepidity, would not be able to gather. You can be sure that unforeseen and involuntary changes do come up for me, without my wanting them. God knows that I do not lie, please allow me to express myself thusly, pointing out to you the internal status of my heart which has the inclination of pleasing everyone; but, how can I do that when, at the present time, I am occupied with the aforementioned opening of the House in Terracina, and also with giving instructions to our companions who will be passing through here? The conclusion, therefore, is this: Presently, I will be able to send workers,

⁶⁹ The year is 1825.

and very fine ones, even for a Retreat for the clergy etc., but, I myself will not be able to come.

I received a letter from Monsignor Cristaldi this morning with regard to Terracina at the same time that I received yours. So, if you will not be having a Lenten series preached there, would it not be possible to begin during the final days of Carnival time, I mean to say, during the last week, and thus make compensation to the Lord for the many outrages that he receives, and then continue it until it is completed after 15 days? Thus, the present arrangement would cease. Believe me, I am truly humbled to be sending you this letter, especially since I esteem and love you so much. So, *de necessitatibus meis erue me Domine*.⁷⁰ But, even if you do have the Lenten series, could the Mission not be terminated on the first Sunday of Lent, and then have the Lenten sermons continue after that? You yourself might arrange for the Mission now and then, when I have some time free, I could come for two or three days to give a boost to the harvest and, at the same time, to demonstrate to you the holy eagerness I have for embracing you again in the Lord. So, at the foot of the Crucifix, you make your decision. And, whatever that decision may be:

1. It is understood that the Mission is to last 15 days.

2. There will be two Missionaries: *misit binos*;⁷¹ by my calculations I cannot promise more. One will teach catechism and one will do the preaching; have no doubt, it will be handled well. The economical use of time is crucial. *Misit binos*; let us trust in these words, and especially in the universal Jubilee; at another time, I would make other calculations.

3. The Missionaries' are to have the greatest possible freedom in their place of residence. They will bring along a Brotherinservice who will assist them and, it is understood, they will lead a religious life *iuxta regulas*.⁷²

4. See that the platform is quite spacious.

5. ⁷³ Ask for the faculty of adding the Collect "*pro petitione lacrymarum*"⁷⁴ to the Mass.

6. ⁷⁵ At the time of the sermons, all the taverns are to be closed etc. Oh! the good work that will be done. More when we see each other in person. I kiss your hands. With all esteem and respect, I remain, in Jesus Christ Crucified,

P. S. At the entrance ceremony, there is the consignment of the Crucifix following that method which we, in time, point out to you, even a halfhour before, shall I say, the arrival of the Missionaries. But, now the maildelivery man is rushing me. You need not give him any money; just a bit of refreshment. Pray a lot, a whole lot for me, and be understanding toward me. *Christus dilexit nos, et lavit nos in Sanguine Suo*⁷⁶

Venerable Monsignor

Oh how delighted I was to see your handwriting after so long a time. I, too, note the misplacement of letters. I am recommending to you the two enclosed petitions;⁷⁷ please take care of them for me. The one deals with those faculties which I have been accustomed to use for so many years, and I would like to have them extended at least for 1826. How can one manage things which, just between us, have always been our practice, when far from Rome, since nothing has ever been done without papal authority or rescript? I note that your meeting may have given rise to some misunderstanding of terms. What can I say? You simply cannot imagine how many and what requests have been coming in. Presently, I am assigning the various companies of workers, since I am responsible for looking after whatever is pressing in this regard. But, I would like to be at ease with regard to everything that I have been requesting in behalf of the good work which, by the grace of God, I am obliged to promote. You also can realize the amount of gossip that will arise if those faculties are suspended ... can you imagine that the devil is going to sit back quietly. Nevertheless, I am prepared for anything. To God be the glory; to me humiliation, and let us go ahead. At times, it will be necessary to suspend one or the other confession, and then have to write. Patience. May the will of God be done.

The Missionaries are already back in Terracina and in order to send them there I had to take on a small debt so as not to allow the devil a victory; what else could I do? I am feeding on the bread of pain, but may the lovable, ever most lovable God be blessed. However, I must confess that the worries of this past year, despite my having sought to offer them to God, have diminished the vigor of health that I used to have before. They have been the cause of a certain clashing of nerves that bring on weakness. Still, I keep helping the Society, the ministry, the house of studies as best I can and I assure you that the problems keep increasing day by day.

⁷⁶ Christ loved us and washed us in his own blood.

⁷⁷ See the following two letters.

Recommend me to God. My obligations to you are inexpressible. Read everything that I have in my heart. Try to get me exempted from the postal expenses.

I urge you to keep Albano in mind, since I must now be concerned with Terracina, as well as those arrear payments for this House. I am limiting myself to asking for what is ours by reason of justice, and not only as a favor. Presently, the Missionaries in Sonnino are going to the Monastery delle Canne. In Vallecorsa, the building project is continuing. I keep making a review of my omissions in order not to overlook anything pertaining to the Society etc.

I kiss your hands. The Archbishop of Spoleto is also requesting Missions. Pray a lot for me so that I will be saved. I fear that there will be a great chastisement since, up to now, the principles of the Reform are not in evidence. *Oremus ergo provoluti coram Domino*.⁷⁸ I know that in the Propaganda they are eagerly seeking workers. I hope that, one day, from this small plant of ours, which the devil has sought and continues to seek to destroy, abundant fruits will be spread abroad also through those Missions. I conclude with what the holy Monsignor Strambi used to say: Lord, give me your grace, and a few farthings". We chuckle to the glory of God. Take care of yourself and know that there are many, many prayers and Masses offered for you, since after God you are our father, our all. May the Lord preserve you, let me express myself thusly, to the age of Noah.

But, in the final point of life, the divine Blood will be your comfort, your confidence just as it was for St. Francis Caracciolo who said: "Lord, give me your Blood which is mine because you gave it for me". You will realize that the works that have been promoted by you will open for you the blessed gates of heaven. Do you know why I said that the Reform has not as yet begun? Because it must have its beginning in what is the sacred. ... It is underway ... but not with that insistence on the principles, with encyclicals etc. etc. etc. Anything more will be said in the wounds of the Lord. Our sins have held back the granting of grace, of illumination, of acts of mercy. Most reverend excellency, in the meantime, I remain constantly

⁷⁸ Let us, therefore, pray prostrate before the Lord.

Pope Leo XII
Most blessed Father

The nowdeceased Pontiff, Pope Pius VII, in granting the benefits of S. Felice in Giano to the Schools of the city of Spoleto, set aside an endowment for that sanctuary, so memorable to Umbria, where S. Felice preached the Gospel and met martyrdom for the glories of the Crucified Lord. In the very recent wellknown upheaval, with the Passionists who had been inhabiting S. Felice being expelled, the administration of the Schools did not grant entirely the endowment set aside for the sanctuary. However, the nowdeceased Pontiff Pius VII, in installing there or in replacing the Passionist Fathers with the Missionaries of the Archconfraternity *sub titulo pretiosissimi Sanguinis Domini nostri Jesu Christi*,⁷⁹ ordered by his rescript that the arrearpayments be calculated and then to be used in the restoration of the building so very much in need of repair, as well as for sacred utensils and anything else needed, and that the supplying of that endowment should be continued. Now, most blessed Father, the Missionaries, expecting to receive those back payments, immediately applied themselves to the work of restoration and they established the pious Institute of Missions and Retreats. However, the administration of the Schools never satisfied the obligation of those arrearpayments, and, as a result, the House is faced with heavy debts. The Jesuit Fathers, to whom those benefits are presently extended, surely must not have that obligation in their possession. Therefore, the petitioners beg your Beatitude for an opportune and benign consideration; that etc.

Acquasparta

Hail to the Blood of Jesus Christ

Most esteemed Prior

The man in Giano asked me to say that last Thursday he was unable to be in Acquasparta. So, I thought I should write in order to demonstrate to you, as best I can, my sincere esteem and affection for you who, to my deepest edification, have been seeking to promote something that leads to the greater glory of God, especially in these miserable times of ours. I assure you that I kneel humbly before God because of the inevitable delaying of your Mission, to which, except for unforeseen orders coming from Rome, I personally would be coming. But, now I have reflected that, taking all the circumstances into consideration, the Mission cannot be arranged for 15 days; furthermore, it is not up to me to change the days and method arranged for the Lenten preaching. If the preaching for Lent had been omitted, then oh how nicely everything could have been set up. Still, I am highly pleased. at any rate, that good work is being done.

So, let us do as follows: immediately after Easter, let us have the Mission. In that way, you will have help for those who are going to fulfill their Easter duty. I am hopeful that there will be three of us coming since I will have my Lenten preachers free. We do not preach Lenten series anywhere else than in the places where we have a Mission House. So, as a rule, the bishops give us that duty and in that way we are not disturbed from doing our good work. Some might say that I am fickle. But God is my witness. I assure you that later, except for Acquasparta, I shall give my attention only to the Institute in general, especially since we now have very, very solid members. Let that be said to the glory of the Lord. I see myself as a ship sailing out on the high seas. In the fog of spiritual and temporal matters in the Society, they are but relative and continuing eventualities. Thus, let us be in agreement. In the meantime, you are able to observe the sanctified carnival with the recitation of the Chaplet of the Divine Blood. You told me that sermons had been provided in Advent; within a short time it will be Lent. God's mercies will be multiplied with an increase of graces because of the special encouragement of the holy Mission. For my own peace of mind, I would like you not to remain in an agitated state because of me, I would not want to be the source of disturbance to you. With the grace of God we shall succeed in our intent, and fruitfully too. By that time, they will surely have promulgated the universal Jubilee Year. So, during Holy Week, I shall write again concerning the arrangements for carriages and nothing else will be required. As you yourself have observed, you, likewise, can work hard to make that date widely known, thus offsetting rumors and remarks, that so easily arise. You

handle things as you see best.

However, I still have another bit of inconvenience for you, and here it is. Would you be able to get a couple of *vescighe di distrutto*, some *prosciutto*, a few sausages and some pork chops? Send me the bill, and through the courtesy of the man from Giano, I shall send you the reimbursement immediately. My messenger will be able to carry everything. In the purchase of these things, we are limiting ourselves since Ash Wednesday will soon be here. Please excuse me, *et Dominus retribuet pro me*.⁸²

Father Biagio Valentini recommends to you the enclosed matter, but safely forwarded and free from every contingency. Why do you not come to visit me here in S. Felice? Come and spend a day or so with me. In person, you will be able to hear the long list of my present concerns. In my behalf, write to the Archpriest Rossi. Tell him that Archbishop Ancajani has written to me concerning a Mission which we are going to set up along with the Mission in Acquasparta. For my own peace of mind, check with him and then send me a reply. I kiss your hands and wholeheartedly I remain

I have received your most appreciated letter of the first of this current year concerning the matter of the subsidy for Terracina, and, in addition, that you indicate that you do not wish to get involved in either Giano or Albano and other things that, on occasions, I have mentioned to you. Patience. May the will of God be done. It simply is not right for me to increase your sufferings with my continuous insistences that arise out of sheer necessity and with repugnance to my spirit. I would, as a matter of fact, like to minimize them. Indelible in my mind is my remembrance of you and I can say to you unhesitatingly: "*Oblivioni detur dextera mea, si obliviscar tui*".⁸⁴ Let us remain together in the wounds of Jesus Christ, our only mansion, and let us not lose courage, a piece of religious advice for which I am grateful to you with all my heart. I say nothing more.

In this same maildelivery, I am writing a letter of mine to the most reverend Delegate in order to get him interested in the Convent of S. Agostino. With respect to the bishop, we feel very sure of his full cooperation, once he has been approached. Again, in Frosinone, we have spent not a little money in readying our place. Hail to the most Precious Blood of Jesus Christ

Venerable Monsignor

The bishop of Rimini is asking me for a Missionary who is to preach three times a week in Rimini from the second pulpit of that city, that is, from the second special platform, in keeping with our method of preaching. We cannot refuse preaching assignments in the places where we have our Houses. So, for the sake of economy of expenses, one of our men from Pievetorina will be coming there; and then one of our men from Rimini, probably Canon Bertoni or Father Rafaele Brandimarte, will be going to Pievetorina; and, it is understood, he will present himself to your most reverend excellency, to undertake work in that House. In accordance with our agreements, I must dutifully inform you of these things.

Fr Rafaele Brandimarte is a man who is quite seasoned in preaching; I do not want to disparage, in any way, Canon Bertoni, but he is aging a bit. You cannot possibly imagine the number of requests coming to us. May St. Francis Xavier give me workers as numerous as snowflakes! The world is in horrible shape. Preachers of the Gospel are needed here and abroad. It is necessary that there be an exchange of personnel between bishops. I hope that you will release Angelici who is being called to our group. May St. Francis Xavier obtain ever more ample blessings on you, the most reverend bishop of Cammerino, whom I love and esteem so very much in the Lord. as I kiss your hands, I have the honor of devoutly declaring once again that I am

Hail to the most Precious Blood of Jesus Christ

Venerable and most beloved Monsignor

Enclosed is the original copy of the petition, which, as a favor, you will please return to me. Since August, several petitions have been sent, but with no results. So, I beg for the greatest possible solicitude. I know very well how heavily burdened you are with things, and I, except for the most urgent matters, am trying not to inconvenience you. May the Lord reward you amply for this good deed which is seeking help for our poor church here in S. Felice.

But here is a bit of consolation. His most reverend eminence, the Lord Cardinal della Somaglia, has written to me asking for a Missionary for the foreign missions. Because of the great needs of the people, described in that letter, I was moved to tears with tender pity for those souls. In that letter, he acknowledges our Missions under the most august title of the Divine Blood, and all the young men in our House of studies, on hearing about this, gave praise to God in the desires that they all nourish, namely, to be completely dedicated to the ministry. Indeed, one of our men will surely be going. My Monsignor, I do not know whether I will ever see the glories of our Institute, but I am hopeful that it will be the delight of everyone. Oh the needs of souls! Preachers of the Gospel are needed everywhere. First this, then every blessing. Oh how much I would like to say to you! May the Holy Spirit communicate it to you. May Jesus be our delight, and let us rest on the mystical bed of the Cross: "*Lectulus floridus*"⁸⁶ by means of the virtuous acts with which it is surrounded.

I must not overlook one observation, for the pure glory of God. ... during the past holy year in Rome, was there any province as edifying as the Province of Marittima and Campagna? Praise be to God, and to you, consolation, as our benefactor and father. I kiss your hands and ask you to keep me in your prayers. I renew my sentiments of esteem and respect with which I am and will constantly be, most venerable Monsignor,

Your humble, devoted and obliged servant

P. S. Give my thanks to Father Girolamo for his letter. The reply is the petition which I am enclosing.
